

# MANAGEMENT SYSTEM CERTIFICATE

Certificate no.:  
10000476060-MSC-RvA-NLD

Initial certification date:  
31 March 1993

Valid:  
26 August 2025 – 02 October 2027

This is to certify that the management system of

## **J. de Jonge Group B.V.**

Kon. Wilhelminahaven ZZ 18, 3134 KG Vlaardingen, Netherlands

and the sites as mentioned in the appendix accompanying this certificate

the company's HSE system meets the requirements set out in:

### **SCC 2017/6.0 Petrochemical**

This certificate is valid for the following scope:

**New construction and maintenance of liquid transport systems, gas transport systems, and production systems.**

**New construction and maintenance of loading and unloading installations.**

**New construction and maintenance of heat exchangers and pressure vessels.**

**Supply and maintenance of new rotating equipment and accessories.**

**Maintenance and new construction of and on storage tanks. Jacking and moving of storage tanks. Construction and renovation of tank foundations, including soil remediation work using conventional methods.**

**Measuring and/or 3D scanning of loading and unloading installations, liquid transport systems, gas transport systems, and production systems.**

**Design, development, production, assembly, and service of complete pump units and pump systems.**

**Installation and service of complete pump units and pump systems.**

**Inspecting and checking technical installations with regard to construction, operation, and safety, including related on-site training.**

**Performing service, maintenance, and modification of technical installations.**

**(NACE Rev2. 33.11, 28.99)**

Place and date:  
Barendrecht, 26 August 2025

For the issuing office:  
DNV - Business Assurance  
Zwolsseweg 1, 2994 LB Barendrecht,  
Netherlands

J.H.C.N. van Gijlswijk  
Management Representative

## Appendix to Certificate

### J. de Jonge Group B.V.

Locations included in the certification are as follows:

| Site Name                    | Site Address                                                 | Site Scope                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

Wilhelminahaven ZZ 18, 3134 KG Vlaardingen, Netherlands | New construction and maintenance of liquid transport systems, gas transport systems, and production systems. New construction and maintenance of loading and unloading installations. New construction and maintenance of heat exchangers and pressure vessels. Supply and maintenance of new rotating equipment and accessories. Maintenance and new construction of and on storage tanks. Jacking and moving of storage tanks. Construction and renovation of tank foundations, including soil remediation work using conventional methods. Measuring and/or 3D scanning of loading and unloading installations, liquid transport systems, gas transport systems, and production systems. Design, development, production, assembly, and service of complete pump units and pump systems. Installation and service of complete pump units and pump systems. Inspecting and checking technical installations with regard to construction, operation, and safety, including related on-site training. Performing service, maintenance, and modification of technical installations. (NACE Rev2. 33.11, 28.99) |
